

PRIVACY POLICY (for Bill Presentment, Bill Payment, and PopmoneySM Personal Payments Services)

1. **Introduction.** The following privacy disclosures are provided by Schlumberger Employees Credit Union (hereinafter "we" or "us") in connection with the Bill Payment, Bill Presentment and PopmoneySM Personal Payments Services (the "Services") offered through our online banking site (the "Site"), and describe the types of "Personal Information" (information that is identifiable to a particular person) that we (directly or through our service providers) collect in connection with the Services, and how we use, share and protect that Personal Information. These disclosures supplement the disclosures that you have already been provided in connection with our Site and the other services offered through the Site. Some of this information is required by U.S. federal law or other law.
2. **Eligibility.** The Site and the Services are offered only to individual residents of the United States and its permitted territories who can form legally binding contracts under applicable law. Without limiting the foregoing, the Site and Services are not offered to minors. We do not knowingly offer the Services to nor collect any Personal Information from or about individuals under 18 years of age. Please do not submit such information to us, and as a parent or legal guardian, please do not allow your children to submit personal information without your permission. Other restrictions and eligibility requirements for certain Services may apply as described in the Terms of Service or other disclosures on the Site. By using the Site and/or the Services, you represent that you meet these requirements and that you agree to the terms of this Privacy Policy.
3. **Scope.** This Privacy Policy applies only to the Services as offered on this Site. For more details on what your rights and obligations are when using the Services, please also refer to the Terms of Service and other notices and disclosures regarding the Services.
4. **Cookies, Browser Information and Related Issues.**
 1. When you use the Services, we may receive certain standard information that your browser sends to every website you visit, such as the originating IP address, browser type and language, access times and referring website addresses, and other such information. This data may be used, among other uses, to improve the operation of the Services and to improve the security of the Services by assisting in "authenticating" who you are when you access the Services, particularly if you register for a Service and are issued or create a username and password.
 2. We may also receive additional information about your visit to the portion of the Site that hosts the Services, including the pages you view, the links you click and other actions you take. This data may be used among other uses to improve the operation of the Services and the portion of the Site that hosts the Services.

3. Like most websites, the portion of the Site that hosts the Services uses "cookies," which are small text files placed on your computer by the web server when you visit. Most such cookies are "session" cookies that are only used for a specific period during which you are using the Services, but a few are "persistent" cookies that stay on your hard drive and are read by the web server when you return (unless you delete them). The portion of the Site that hosts the Services uses cookies to store your preferences and other information on your computer in order to recognize the computer through which you accessed the Site for security purposes, to save you time by eliminating the need to repeatedly enter the same information, and to display your personalized content on your later visits. These cookies are linked to Personal Information about you, such as your email address. Cookies cannot and will not be used to deliver or run programs on your computer. Most web browsers automatically accept cookies, but you can modify your browser setting to decline cookies if you prefer. However, if you choose to decline cookies, you may not be able to sign in (or you may need to take additional steps to sign in) or you may not be able to use other interactive features of the Services that depend on cookies.
4. Tracking: With respect to personally identifiable information about an individual consumer's online activities over time and across different Web sites or online services when a consumer uses the portion of this Site that hosts the Services, except as required by law: (1) parties other than the operator of this Site are not permitted to collect such information, and (2) the operator of this Site does not collect such information (except any such information that is reasonably necessary to process and document user transactions, such as payment history). Therefore, the portion of this Site that hosts the Services has no need to respond and does not respond to Web browser "do not track" signals or other mechanisms that provide consumers the ability to exercise choice regarding the collection of such information.
